

Intuition

"Intuition is the manifestation of the
divine consciousness within you.

The messages it sends are essential to
our emotional, physical and spiritual health.
Receiving and understanding these truths
will change your life and
help you find your true path."

Judee Gee, *Intuition - Awakening Your Inner Guide*

*"It is always with excitement that  
I wake up in the morning  
wondering what my intuition will toss up to me,  
like gifts from the sea.  
I work with it and rely on it. It's my partner."*

*Dr. Jonas Salk, polio vaccine inventor, (1914-1995)*

~~~~~

*"TTouch has been shown to activate Theta brain-waves,
awakening our intuitive knowing and thereby enriching our lives
beyond measure."*

(From brainwave studies with Anna Wise and MindMirror measurements in 1984 and Robin
Bernhard and BrainMaster measurements in 2005.)
